

Technical Bulletin

WashTechs 7415

DESCRIPTION

WashTechs 7415 is a formulated polymer and surfactant anti back staining agent suitable for use on cotton and cotton and polyester blended fabrics – including denim and pocketing. The product can be applied in the desize and / or abrasion baths by adding directly to the washer.

WashTechs 7415 may also be used as a component in formulated denim abrasion aids to enhance contrast by reducing indigo back staining.

BENEFITS

WashTechs 7415 has the following beneficial characteristics.

- Economical to Use – Concentrated
- Suitable for Cotton and Polyester and Cotton Blended Fabrics
- Stops Back Staining
- Compatible with Most Chemicals

TYPICAL PROPERTIES

Color	Off White
Texture	Powder
Odor	Mild
Ionic Nature	Nonionic
Solids	About 100%

PREPARATION

WashTechs 7415 may be used as is. Simply weigh and charge to the washer.

APPLICATION

General washer dosage rates are as follows for **WashTechs 7415** (100% active).

Desize	0.10 – 0.3% OWG
Abrasion	0.05 – 0.2% OWG

Typical fully formulated abrasion aids may contain 5 – 50% **WashTechs 7415**. Normally, less is used with neutral cellulase (5 – 20%) and more with acid cellulase (20 – 50%).

STORAGE

WashTechs 7415 should be stored in a cool, dry and well-ventilated area.

HANDLING

Follow good industrial hygiene when handling **WashTechs 7415**. Please refer to the Material Safety Data Sheet for details.

PACKAGING

WashTechs 7415 is available in bags or drums.
